# Pregnancy, Breastfeeding & Child Health

## Healthy Pregnancy

The Healthy Pregnancy Program for expecting parents provides education that is trimester specific, support with both preparing for birth, and bringing home your newborn.

### How Can Prenatal Care Coordination Help?

- Provide support during pregnancy, and after delivery
- Set up needed healthcare appointments
- Learn how to keep you, and baby healthy
- Help you to find a healthcare or dental provider
- Connect with community resources for diapers, car seats, and cribs

**Reminder:  
These  
services  
are no cost  
for families**

## Breastfeeding Support

Our Breastfeeding Support Program offers guidance and resources for every stage of your breastfeeding journey. Our Certified Lactation Counselors (CLCs) provide:

- Comprehensive assessments to support proper latch, and positioning
- Evaluation of your baby's nutritional intake
- Feeding weights
- Guidance on pumping, and milk storage
- Support for transitioning back to work

When needed, we also provide referrals to International Board-Certified Lactation Consultants (IBCLCs) for specialized care.

**Nurses provide comfort through home visits and can support by phone.**

## Child Health & Parenting

The Child Health and Parenting program is a home visiting program for families with babies or young children.

A nurse will work with your family to: provide age appropriate education, health & developmental screenings, as well as connect with resources.

Your family's nurse will create personalized visits to fit your specific needs.

We value healthy homes  
at Waukesha County  
Public Health.
